Institute for Media and Communications Research  
KEIO UNIVERSITY

Notes for Authors  
in *Keio Communication Review*

Authors should retain one copy of their typescript and send another copy, fully numbered, to the Editor of *Keio Communication Review*, Institute for Media and Communications Research, Keio University: JAPAN, 108-8345 Tokyo, Minato-ku, Mita. Please do not send your manuscript by fax because we need clear copies.

1. CONTENT: Academic research that has to do with (mass) communication in Japan.
2. LANGUAGE: English.
3. DEADLINE: September 30. Those whose mother tongues are not English must ask a native speaker of English to check their English before submission. Those who cannot find an appropriate native speaker should consult us by September 10.
4. LENGTH: Fifteen to thirty type-written, double-spaced pages on A4 paper is the most appropriate.
5. SPACE BETWEEN LINES: Space between lines should be the same through-out the whole manuscript. Please do not add additional space between paragraphs. Please make about a five-letter indent at the beginning of each paragraph.
6. TITLES AND SUBTITLES: Boldface letters should be used for titles and subtitles. Please do not number major subtitles that are to be printed by boldface letters. As for the combination of upper and lower cases (capital letters and small letters), in titles and sub-titles, please see the first page in previous issues. In case boldface letters are not available in your typewriter or word processor, you may type titles and subtitles by ordinary letters.
7. FORMAT OF THE FIRST PAGE: Please see the first page of any article in this issue. At the bottom of the first page, please add footnote indicating your present position. If you wish, you may add "AUTHOR'S NOTE" for acknowledgements or a note regarding the whole article.
8. TABLES AND FIGURES: Tables and figures should have short, descriptive titles printed by boldface letters. All footnotes to tables and their source(s) should be placed under the tables. Camera-ready artwork for all figures must be supplied.
9. NOTES: Notes should be indicated by superscript numbers in the text and collected at the end of the article. As for the format of NOTES and REFERENCES, please see any notes in this issue.

10. REFERENCES: References cited in the text should read thus: Ikuta (1989: 21-22), Ikuta (1989: 67), *New York Times* (1985: 7). (21-22, 67 and 7 after [:] indicate pages of citation). The letters a, b, c, etc. should be used to distinguish different citations by the same author in the same year, e.g. Ikuta (1975a, 1975b). All references cited in the text should be listed alphabetically and in full after the notes, using the following style. It is often confusing and difficult to recognize if you put a comma after every family name, especially when the book or article is coauthored. So, please capitalize all family names and do not put commas after them.
